Neville Hair & Beauty presents:

Chromatic Reverie.

at the L'Oréal Colour Trophy 2025

This year, Neville Hair & Beauty takes centre stage at the L'Oréal Colour Trophy 2025 with "Chromatic Reverie" - a bold, high-concept showcase led by Creative Director Jack Merrick-Thirlway and the award-winning Neville artistic team.

A reverie is a dream-like state of imagination - and this showcase is exactly that: an immersive journey through colour, shape and movement. With couture-level precision and creative freedom at its core, "Chromatic Reverie" invites audiences into a world where hair becomes sculpture and colour becomes emotion.

Expect an electrifying celebration of movement, form and chromatic precision, as the team unveils a collection of sculptural hair looks that explore exaggerated shapes and fluid lengths. Every element is designed to capture and reflect light, creating a sense of continuous motion on stage.

The palette? A kaleidoscope and spectrum of reds and magentas - deep, vivid, and full of emotional energy. These hues don't just colour the hair; they tell a story of confidence, passion, and creative power.

"Chromatic Reverie" is more than a show - it's a glimpse into the future of couture hairdressing, where artistry meets technical mastery and every detail is a statement.

Join us as Neville Hair & Beauty redefines what it means to create colour in motion.
